

# Dr. Warith Harchaoui

Warith Harchaoui, Ph.D. in Applied Mathematics, is passionate about artificial intelligence (AI) in both research and companies. In 2008, he began his never-ending learning process with the best AI scientists thanks to the École Normale Supérieure de Cachan (M.Sc.). After several experiences in the field of Computer Vision in startups and worldwide companies, he decided to pursue his research endeavor at the École Normale Supérieure de Paris at the Willow laboratory which is ranked among the best in the world. Later, he reinforced the corporate component of his career in Data Science within the e-commerce world leader for selling car parts from 2014 to 2020. While keeping his operational responsibilities, he accomplished his Ph.D. in Applied Mathematics from 2016 to 2020. Today, his expertise in image, sound, video and text processing encouraged him to embrace new dreams: bringing his expertise from artificial intelligence into the real world.
